

VORRA Club Championship

Point-score System

The aim is to beat everyone in your driver AND engine class and below to get maximum points in each heat.

Outright Points:

5 Points for entering and attending an event prepared to start.

1 point for every VORRA member you beat on the day.

Driver Classes:

Classes are broken up into Class A, B and C.

All VORRA members begin in Class C. Once they beat all other Class C VORRA members in their engine size and below at an event, they proceed to Class B. The same follows for Class B to Class A. The exception to this is if a VORRA member has won a Championship of note (club, state, national, etc) where they are automatically placed into Class A or at the discretion of the committee. The intent is to give new drivers experience and the opportunity to amass points in the championship without having to compete against more experienced competitors. The VORRA committee has the power to alter the Class a VORRA member is in should it be shown that the said member is clearly in the incorrect class, however, it should not generally be used to move a member to a higher class as natural progression and improvement are the goal. (There is an amount of freedom so a competitor is not forced up a class even though they won an event as it is unfair for you being the only VORRA entrant).

Engine Capacity:

All classes are broken up into engine 4 engine capacity sub-categories, which includes appropriate multiplication factors for forced induction with the intent being that on outright performance a small capacity vehicle will rarely beat a larger capacity vehicle and should not have to compete with said handicap.

Class	Numbers	Engine Size
Probuggy	1-99	L
Prolite buggy	100-199	L
Super 1650	200-299	S
Sporstman	300-399	XS
Extreme 2WD	400-499	L
Production 2WD	500-599	L
SXS Turbo	600-699	L
SXS Sport	6601-6699	M
Production 4WD	701-799	L
Extreme 4WD	801-899	L
Sportslite	1001-1099	M

Class points:

1 point for every member you beat in the same or higher class, combined with the same or greater engine capacity.
e.g. A Class B ~ Medium driver gains a point for all those he beats who are in both Class A & B, and are either Medium or Large capacity.

Total score:

Outright Points + Class Points
